Metrika

International Journal for Theoretical and Applied Statistics

Founders
O. Anderson – H. Kellerer – A. Linder – H. Münzner – S. Sagoroff – W. Winkler

Editors
W. Uhlmann – O. Krafft

Volume 32
1985

Physica-Verlag · Wien

ISSN 0026-1335

Referees are at present:

E. Bomsdorf, Köln – **H. Drygas**, Kassel – **L. Fahrmeir**, Regensburg – **P. Gänssler**, München – **M. Haber**, Atlanta – **J. Hartung**, Dortmund – **E. Helten**, Mannheim – **K. Hinderer**, Karlsruhe – **A. Irle**, Münster – **J. Jureckova**, Prag – **D. Morgenstern**, Hannover – **U. Müller-Funk**, Freiburg – **D. Mußmann**, Münster – **D. Plachky**, Münster – **F. Pukelsheim**, Augsburg – **R.-D. Reiß**, Siegen – **B. Rüger**, München – **N. Schmitz**, Münster – **H. Schneeweiß**, München – **P. Schönfeld**, Bonn – **M.C. Spruill**, Atlanta – **H. Stenger**, Mannheim – **H. Störmer**, Mannheim – **H. Strasser**, Bayreuth – **H. Strecker**, Tübingen – **W. Vogel**, Bonn – **H. Ziezold**, Kassel.

CONTENTS

I. Publication

Aerts, M.: Rate of Convergence to Normality for *U*-Statistics with Kernel of Arbitrary Degree 351
Ahsanullah, M.: Some Characterizations of the Bivariate Normal Distribution 215
Arnold, B.: Kostenoptimale Prüfpläne bei einem Problem mit drei möglichen Entscheidungen 1
Arnold, B.F.: Approximately Optimum Two-Stage Sampling Plans 293
Bar-Lev, S.K., and *P. Enis*: Reproducibility in the One-Parameter Exponential Family 391
Bartoszewicz, J.: Moment Inequalities for Order Statistics from Ordered Families of Distributions. 383
Behl, M.: Kostenoptimale Prüfpläne für die Laufende Kontrolle eines Qualitativen Merkmales 219
Denker, M., C. Grillenberger, and *G. Keller*: A Note Invariance Principles for v. Mises'-Statistics 197
Engel, J.: Some Characterizations of Distributions by Regression Models for Ordinal Response Data. 65
Gajek, L.: A Remark on Lehmann-Unbiased Estimators for Scale Resp. Location Parameters 73
Grübel, R.: An Application of the Renewal Theoretic Selection Principle: The First Divisible Sum. 327
Gupta, A.K., and *C.F. Wong*: On Three and Five Parameter Bivariate Beta Distributions 85
Holm, S.: On the Optimality of Differentiated SPR Tests of Composite Hypotheses 15
Irle, A.: On Expectation of the Maximum for Sums of Independent Random Variables. 315
Kolonko, M., and *H. Benzing*: On Monotone Optimal Decision Rules and the Stay-on-a-Winner Rule for the Two-Armed Bandit 395
Krämer, W.: Asymptotische Verteilungen einiger Schätzverfahren bei Trend und Fehlern in den Variablen. 151
Linhart, H., and *P. Volkers*: On a Criterion for the Selection of Models for Stationary Time Series 181
Morgenstern, D.: Einfache Begründung für die Irrtumswahrscheinlichkeitsschranke der HOMMEL'schen Mehrheitstestkombination 163
Mukhopadhyay, N.: Asymptotic Considerations for Selecting the Best Component of a Multivariate Normal Population. 363
Padmawar, V.R., and *P. Mukhopadhyay*: Estimation Under Two Stage Random Permutation Models 339
Polasek, W.: A Dual Approach for Matrix-Derivatives 275
Pötscher, B.M.: The Behaviour of the Lagrangian Multiplier Test in Testing the Orders of an ARMA-Model 129
Prabhu-Ajgaonkar, S.G.: Regular Estimators for Subclasses of Linear Estimators. 265
Reschenhofer, E.: A Remark on the Recursive Estimation of ARMA Order. 93
Rickers, B.: Zur Bestimmung kostenoptimaler einfacher Stichprobenpläne bei abgebrochener Kontrolle. 253
Ronner, A.E., and *A.G.M. Steerneman*: The Occurrence of Outliers in the Explanatory Variable Considered in an Errors-in-Variables Framework 97
Ronning, G.: On the Nonnegativity of XX^+ and its Relevance in Econometrics 35

Saleh, A.K.Md.E., M.M. Ali, and *D. Umbach*: Large Sample Estimation of Pareto Quantiles Using Selected Order Statistics 49
Schrage, Ch.: On the Convergence of the Critical Values of Uniformly Most Powerful Unbiased Tests for Two-Sided Hypotheses. 375
Sonnemann, E.: *U*-Optimum Row-Columns Designs for the Comparison of Two Treatments. . 57
Terpstra, T.J.: One-Sided and Multi-Sided Rank Tests Against Trend in the Case of Concordant Observers 109
Vandemaele, M., and *N. Veraverbeke*: Cramer Type Large Deviations for Studentized U-Statistics 165

II. Book Reviews

Basava, I.V., and *D.J. Scott*: Asymptotic Optimal Inference for Non-ergodic Models (*D.M. Chibisov, V.K. Malinovski*) 127
Chung, K.L., and *R.J. Williams*: Introduction to Stochastic Integration (*M. Metivier*) 126
Deutler, T., M. Schaffranek und *D. Steinmetz*: Statistik-Übungen im Wirtschaftswissenschaftlichen Grundstudium (*W. Pietsch*) 411
Durrett, R.: Brownian Motion and Martingales in Analysis (*K. Burdzy*) 413
Ellinger, Th.: Operations Research (*R. Henn*) 409
Gottinger, H.W.: Coping with Complexity: Perspectives for Economics, Management and Social Sciences (*J.D. Hey*) 124
Gut, A., and *K.D. Schmidt*: Amarts and Set Function Processes (*G.A. Edgar*) 48
Ito, K.: Introduction to Probability Theory (*H. Heyer*) 408
Kutoyants, Yu.A.: Parameter estimation for stochastic processes (*G. Pflug*) 410
Lenz, H.-J., G.B. Wetherill, and *P.-Th. Wilrich*: Frontiers in Statistical Quality Control 2 (*W. Uhlmann*) 34
Maaß, S.: Statistik für Wirtschafts- und Sozialwissenschaftler I (*W. Wetzel*) 125
Maaß, S., H. Mürdter und *H. Reiß*: Statistik für Wirtschafts- und Sozialwissenschaftler II (*W. Wetzel*) 125
Menges, G.: Die Statistik – Zwölf Stationen des statistischen Arbeitens (*R. Henn*) 413
Rasch, D., and *M.L. Tiku* (eds.): Robustness of Statistical Methods and Nonparametric Statistics 412
Reid, C.: Neyman from Life (*W.J. Bühler*) 411
Rey, W.J.J.: Introduction to Robust and Quasi-Robust Statistical Methods (*H. Rieder*) 410
